# NOTIFICATIONS.

For St. George, May 17, 1927.

No. 44.—The following notifications of the Government of India are republished:—

Dated, the 26th April 1927.

No. F-12-V.P.-27.—The following annual Report on the working of the Provincial Loans Fund during 1925-26 is published for general information:—

1. The Provincial Loans Fund was established on 1st April 1925 for the purpose of accumulating all loan commitments between the Central and Provincial Governments in a self-contained financial body which should be altogether independent of the general debt account of the Central Government, and with the further object of regulating so far as possible the terms and conditions on which such operations would in future be conducted. All advances granted to Provincial Governments are now made through this Fund and the rules of interest, periods of amortisation and other financial matters, which were hitherto settled by separate orders issued on each case as it arose, are now regulated by definite standards of general application.

2. The Fund is administered by the Government of India and the transactions are shown in the Central accounts. It is possible that future developments will be directed towards the establishment of an independent body corresponding to the National Debt Commissioners in England which also will administer this Fund as an entity independent of the Central and Provincial Governments.

3. All the capital liabilities of the Provincial Governments due to the Government of India on the 31st March 1925 were transferred to the Fund on the 1st April 1925. The Government of India advances to the Fund such amounts as may be required from time to time for the purpose of new loans from the Fund to Provincial Governments which cannot be met from the accumulated surpluses in the Fund of repayments of previous loans. These repayments together with new advances from the Government of India constitute the working capital of the Fund. The Central account is also credited with any surplus or debited with any deficit, as the case may be, arising in the Income Account at the end of the year after deduction of interest due to the Central Government out of any other expenses. Any surplus capital of the Fund which cannot be utilized for the time being for new advances to Provincial Governments may be diverted, under certain restrictions, to liquidation of the debt due to the Central Government.

4. The income of the Fund consists mainly of interest paid by Provincial Governments on advances made to them from the Fund and also of any interest so may be derived from any invested capital. The charges debited against the Income Account consist almost entirely of the payments of interest to the Central Government. This account will also be credited with any gain or debited with any loss arising from realisation or realisation of securities in which any portion of the Fund may be temporarily invested.

5. The main principles on which the Fund operates are mentioned below:—

(a) The Government of India advances money to the Fund at a rate of interest based on the current cost of its new borrowings and the Fund lends to its clients at the lowest rate consistent with safety. It is thus not contemplated that the Fund should accumulate any substantial profit while it will be protected from loss by adjustments of the rate of interest charged to borrowers.

(b) The standard rate of interest calculated as above is charged by the Fund to the Provincial Governments on advances required for capital expenditure which is shown as productive, for advances shown otherwise than as productive the rate of interest is 4 per cent above the standard rate.

(c) Advances will not be made out of the Fund to any Provincial Government which do not provide for their ordinary revenues annual sums sufficient to defray, within a period not exceeding 50 years from the date when they were originally borrowed, any loan or advances which they may from time to time obtain from any source other than the Fund. This condition does not however apply to pre-1925 Government Debt.

(d) All new advances from the Fund and all advances outstanding at the inception of the Fund, other than the debt relating to irrigation works constructed before the Reform, are subject to special stipulations on terms agreed upon between the Government of India and the Provincial Governments.

6. The accounts of the Provincial Loans Fund for 1925-26 as audited and published by the Auditor General are printed as an appendix to this report. The total capital liabilities of Provincial Governments due to the Government of India and outstanding on the 1st April 1925 amounted to Rs. 1,48,42,811 made up of Rs. 43,70,12,666 on account of the pre-Reform Indemnity Debt, of Rs. 1,04,72,770 on account of the balance of the Provincial Loans Account and of Rs. 37,57,955 representing advances for other purposes. These amounts were transferred to the Fund at the time of its first constitution as that date.

7. The advances made by the Government of India to the Fund during the year amounted to Rs. 8,15,54,000 while repayments to the extent of Rs. 1,16,27,731 were made by Provincial Governments bringing the total capital receipts of the Fund during the year to Rs. 14,43,53,315. The Fund advanced Rs. 8,62,54,000 to various Provincial Governments and, as mentioned in paragraph 10 below, utilized a sum of Rs. 48,395 out of the capital receipts to meet the deficit in the Income Account, thus leaving a balance of Rs. 28,18,823 at the close of the year.

Of the total outlay of Rs. 8,63 lakhs, advances for productive purposes amounted to Rs. 5,42 lakhs and those for other purposes to Rs. 1,41 lakhs.

8. It was decided during the year with the approval of the Secretary of State that advances taken from the Fund by Provincial Governments for the purpose of granting loans to local bodies should be regarded as advances for productive purposes. A similar classification will be applied to advances taken from the Fund for the purpose of granting loans to municipalities and to Cooperative Credit Societies in view of the fact that the various local Governments which make such loans charge interest at rates generally sufficient to cover losses and administrative charges.

Although the regulations of the Fund lay down the principle that advances of less than Rs. 5 lakhs for any scheme or group of works are not to be made from the Fund, save for the purpose of special expenditure on productive works or in connection with the operations of commercial departments or undertakings, the rule was not strictly referred during the year in certain Provincial Governments had framed their budgets for 1925-26 before the issue of the regulations on the assumption that no such restriction would be imposed.

9. The Government of the Punjab borrowed in the open market during the year.

10. The cost to the Government of India of new borrowing in 1925-26 was estimated at 5½ per cent. This rate of interest was therefore charged by the Government of India for advances to the Fund while the new charge for the Fund to its clients was fixed at 5½ per cent for advances for productive purposes and at 5½ per cent for advances for other purposes.

The total amount of interest paid by the Provincial Governments to the Fund during the year was Rs. 4,32,14,955 and the amount paid by the Fund in respect of interest due to the Government of India was Rs. 4,20,43,851. There was thus addition of Rs. 11,71,104 to the Income Account which is represented by the fact that certain amounts were repaid to the Fund during the year which the Fund could not fully utilise though it was required to pay interest on the money thus payable. Ordinarily the Fund would avoid such losses by the application of its provisions of advances and of its rate of interest, but in the first year of working these precautionary measures could not be taken in time to obviolate the small 4-8-10 which has occurred in the year under review but is not likely to occur in future. The Income Account in 1928-29 is expected to show a small surplus which will have a small margin of profit after allowance for the deficit of 1927-28.

11. It was decided in consultation with the Government that repayments by them to the Fund should be made by equated instalments of principal and interest payable on the 31st March of each year, interest alone being payable on the 31st March of the year in which the advance is taken. The Government of Bombay have not yet submitted their final schedule of repayment in respect of the advances made by them but it is hoped that the terms of repayment in this case will be settled without further delay.

12. The amount borrowed by Provincial Governments in the open market and from the Government of India (including non-ferrous irrigation debt) and outstanding on the 31st April 1928 was Rs. 26,32,45,731. The appropriations made from revenue during the year for reduction or avoidance of debt by the various Provincial Governments in accordance with the principle outlined in paragraph 3 (c) amounted to Rs. 20,55,136.

The school re-opens on the 4th July 1927 after the summer vacation.

Admission.—Admission are generally open only to those who have at least been students of the High School for a full year in a recognized High School. This is generally the minimum general educational qualification necessary for admission into the school. A fair knowledge of English, at least such as that ordinarily possessed by a qualified Secondary School Leaving Certificate-holder, is necessary to undergo the course with profit. The higher the general educational qualifications, the greater the scope will be for benefit derived from the training given in the school and the capacity to utilize that training to advantage.

**School fee**—Payable three a subject per term, except Typewriting, payable in three equal instalments in the second of July, August and September, and in January, February and March. The fee for Typewriting is Rs. 9 per term, payable similarly. The same rate of fee is charged for both the grades.

**Subjects and classes**—In the English Department instruction is given in the following six subjects, and students are required for the Government Technical Examination in the Lower and Higher grades in each:—

- (1) Book Keeping.
- (2) Theory and Practice of Commerce.
- (3) Banking with Economics.
- (4) Commercial Geography.
- (5) shorthand (Pitman's system).
- (6) Typewriting.

Each of the grades in a subject generally takes a year.

**Time-table**—The time-table is so arranged as to enable a beginner to take up almost all the subjects taught in the school in one and the same year. Students of the Typewriting class are divided into batches, each batch getting an hour's practice every school day. This class is held from 7.45 to 10.45 a.m. and from 3.30 to 5.30 p.m. The other classes are held from 7.45 to 9.45 a.m. and from 4.30 to 7.30 p.m.

Almost all the classes are held both in the morning and evening hours in order to convenience specially in students of day schools and employees in offices in the school.

**Examinations**—The Government Technical Examinations in all the subjects under 'Commerce' are held towards the end of April every year, and the school closes immediately thereafter for the summer vacation and re-opens early in July. The winter sessions in Shorthand and Typewriting are held in December also. The School's Examination is held about the last week of December, after which the Christmas Vacation begins. Those that wish to begin the study of commercial subjects will, therefore, be admitted in July every year, and such students must join early, at least before the 15th of the month. Those that have passed the Lower grade examination and those that have undergone a full year's course, in any of the subjects and wish to continue their studies will also join early so that they may be prepared for the Higher grade examinations of April 1928.

There will be special classes in Shorthand for the Lower and Higher grade examinations of December 1927.

**Notes**—It is specially pointed out that beginners as well as others will get freebies amounting at least before the 31st July 1927, at which time regular classes are expected to begin work.

COMPARATIVE STATEMENT—1926-27—BROWN.

During the year 1926-27 the south-west season was well distributed and was on the whole deficient except in Chitose, the West Coast, the Nigra and parts of the Crown. The south-east season which began late and somewhat feebly was even more unsatisfactory. It was almost a total failure in the Crown and the Domain and a partial failure in the remaining Division. During the dry weather period (January to March) there was a fair amount of rain in parts of the Crown and the South. The rainfall during the period was particularly good in Taverally, On the whole the year was satisfactory.

3. Seedings—1926-27.—

(a) Dry lands—Seedings in 1926-27 were somewhat restricted in Chitose, Karmol, South

Amor, Karmol and Thaverally owing to the want of adequate and timely rainfall. There was, however, an appreciable increase in Amator. The total area sown during the year was about the same as the average, but was less than last year's figures by 3 per cent. The decrease coincided with last year was mainly in Gremor, Chitose, Gallepath, South Amor and Thaverally.

(b) Wet lands—Seedings during the year were generally satisfactory except in Melure and Chingapath. The total area sown during the year exceeded the average by 4 per cent, but was less than last year's figures by 4 per cent. The decrease compared with last year was mainly in Chitose, the Chitose and South Amor. There was, however, an appreciable increase in West Amor.
